Engineer Clarke Tells of the Arrangements Made.

May Have Elevators to North River Bridge Approaches.

Expert Engineers Will Report on July 9.

The promise that there will be two The promise that there will be two multi-colored and "O-o-h!"-eliciting ample promenades from end to end of tones. The spectacle itself necessitated the great rallway bridge that is to span the Hudson from this city to Union, N. J., is halled with expressions of much

Chief Engineer Thomas C. Clarke

These promenades will be at least ten feet wide, and will extend from end to end of the bridge. There will be convenient approaches from the streets at frequent points on the New York side

WITH PADDLE AND FIST.

New York Convicts Disciplined After the Brockway Fashion.

(By Associated Press.) ELMIRA, June 27.—The Reformatory investigation was, after some delay, resumed this morning before Judge Learned and Mr. Deyo, Dr. Flint being

detained by a railroad wreck.
Wilfred Jolly was the first witness called by Judge Gilbert. He is now in his first grade, and was sentenced from New York City June 26, 1891, for burglary. Witness said he had been in the bath-room five times. During his first punishment he was struck over the with the paddle and then taken to be been to be with the paddle and then taken to be been to be b dary. Witness said he had been in the

Pain's Fireworks Accompaniment Makes It a Fleasing Spectacle.

Lillian Russell Will Sign with Abbey -Stage News and Gossip.

"Lalla Rockh and the Fire Worshippers," accompanied by Pain's ingenious fireworks, made themselves comfortable at Manhattan Beach last night. The fl.eworks spoke for themselves as they generally manage to do, in loud, flery, a book-er-the-words, as it is called, for without one the unimaginative spectator could never guess that he was looking at "Lalla Rookh." The spectacle might just as well be called "The Fall of Babylon," or "The Destruction of Je-rusalem." It is quite as good and very much the same as those given at Manwenient approaches from the streets at frequent points on the New York side all the way from the Central Railway Station to the great pice between Fifty-ninth and Sixty-ninth streets. Elevators from the street would be desirable and entirely practicable, but that is a matter of detail not yet decided upon.

"We are compelied by law to build our New York pier no further from shore than the end of the pier line. The Jersey law permits us to build a pier 1.72 feet from the Jersey shore. The only matter now in question and to be decided by the Advisory Board and the Eccretary of War is whether the 2.00 feet clar for navigation. The War Department must decide how much, if any, more.

"Besides the promenades and the four passenger tracks, there will be two tracks for an electrical railway. This road may reach the streets at one or anumber of points, as desired, to suit the sequirements of rapid transit. But that is also a matter still undecided. There will be no provision for freight traffic except express freight. The float traffic except express freight the float of the street and reached by election of a directors by the condition of the central station will be 30 feet to modification to meet the requirements of rapid transit. But that is also a matter still undecided. There will be no provision for freight traffic except express freight. The float traffic except express freight the float of the provide for freight on this ground the street near the water's edge and 140 feet over the water, the upper floor of the central station will be 30 feet to modification to meet the requirements of received when the free will be about 30 feet to modification to meet the requirements of the decision of the War Department."

The election of directors by the stockholders of the New York and New Jersey Bridge Company has been again postponed, this time to July 25, at 216 Broadway.

great attraction during the Summer.

There has been a great deal of quiet cabling this week between Miss Lillian Russell, at her New York home, and Henry E. Abbey, at his London office. It is not absolutely decided just yet that that it will be so. Mr. Abbey made her that it will be so. Mr. Abbey made her in a tractive offer, but the prima donna did not jump at it because—well, it is always bad form for an \$50-a-week prima donna to jump at anythine. Since Mr. Abbey has been in London Miss Russell has cabled him that she would agree to pay the expenses of any litigation that might be caused by Merrs. Canary & Lederer. Abbey has spreed to do this, and if Miss Russell goes to England she may sign the contract there. That is the very latest state of the case.

The outgoing European steamers carry several theatrenal people to-day. Among them are Miss Edith Kenward, the kangaroo dancer; Miss Bianches, tory several theatrenal people to-day.
